## Chairperson's Comments 2020:

This is my second year as Chairperson of the Hwd3DEx. I had no idea that our move to admit electronic-images only last year would become key to holding the event this year. In January when I started the process with PSA we hoped to Judge the event at the Downtown Independent Theater with Hollywood Motion Picture Stereographers as selectors. We sincerely hope theaters, especially family owned theaters, are able to recover from this long lack of attendance.

The Covid-19 Pandemic stay-at-home order forced us to reconsider meeting in-person "collocated." The LA3D Club has been doing distanced monthly competition judgments remotely since March. But, the Hollywood Exhibition requires the judges to confer and interact. So, we worked out a system to Judge synchronously.

Judging was virtual due to Covid-19. On November 15, 2020 we had a synchronous judging over a Zoom Video Meeting. Two Judges had 55" 3D Monitors, One had a 46" 3D monitor. It went smoothly with judges typing their scores into the chat. A screen share made sure all were looking at the same image. An HTML5 gallery was made by Eric Kurland so the images were presented randomized and anonymously. Lawrence Kaufman called out the scores. David Kuntz tabulated them in a spreadsheet, I presided with some other LA3D Board members observing over a virtual Zoom Chat.

It went so well that we hope our monthly competitions can be judged live over Zoom during a meeting just as we would do at a regular physically attended meeting. I personally miss making discreet snarky remarks during live judging. 😊

Participation was vibrant and the range of the images was diverse. We had a total of 52 entrants. The judges were very strict about stereoscopic disparities. The scoring curve overall was a little lower than usual. But, the results were fair. The PSA guidelines, of course, limit us to less than a 45% acceptance rate of total entries. So, sadly some very fine stereoscopic images could not be accepted.

We will share all the fantastic accepted images in a few ways. There will be screenings of all the accepted images and an HTML5 website that will allow various viewing formats. The award winning images are here in this Catalog below.

You can view all accepted images at this link in an HTML5 Gallery:

Thank you all for participating. The competition is only as good as the entrants. I encourage and challenge you all to contribute your images to next year's Hollywood Stereo Exhibition.

Stay healthy and happy.

## Women with ceramic jars. Same Scene from two photographers:

We have two very similar images taken moments apart. One photographer is from Wisconsin and the other is from Maryland. Both images scored 21 and were accepted by the Hollywood Stereo Exhibition 2020. Congratulations to you both. Signe Emmerich: “Four Vietnamese Ladies” & Henry NG: “Jar Ladies.” Truly Stereo photography.

### The story told by the photographers:

**Signe:** Yes, these were taken in Vietnam in 2010. I was on a wonderful tour lead by Henry and his business partner Thomas. The trip took us to rural areas and offered many cultural sites and local people for us to photograph. This scene was one of them. It was one of the best trips I’ve been on. The people were so gracious and the country is beautiful.

Neither of us knew the other was entering the similar photos and after all these years this has been quite a coincidence and surprise!

**Henry:** Actually, we stood at a short distance from each other. I did not know Signe shot it at almost the same time I shot it. You can see it from the slightly little different angles of the two images captured. We do not know we both took the same picture at that time until now. It is one of my favorite 3D images.

**Signe:** Henry and I were the only two photographers with a stereo camera... the Fujifilm W3. I had just gotten the camera for the trip so I was new to using it...had a lot of pictures with tips of fingers showing. Fortunately that did not happen at this photo shoot.

Henry NG “Jar Ladies”
